Release for Dielectric IME 82 and IME-MH

Dear Mr. Storr,

since many years we are using dielectrc IME 82 and IME-MH in our application centre in Germany with success.

Based on this experience we release both types for our electric discharge machines according to the following issues:

- process speed
- surface quality
- wear
- equipment compatibility
- filterability

Best regards

exeron GmbH

Bernfried Fleiner
